SNOW PAC

FOR SURGERY POSITIONING PATIENTS

Snow Pac are soft pads (Available in various sizes and shapes) that are filled with thousands of tiny plastic beads. Snow Pac provides more stable and comfortable position to patients and saves valuable time for the entire O.R team on every case.

It prevents pressure points (With Gel). It aids faster, easier set-up and repositioning during surgery.
It aids to become comfortable position. It aids better surgery position presentation.

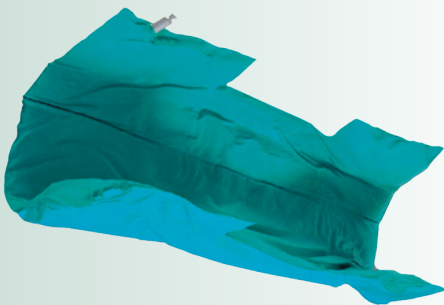

PRINCIPLE OF SYSTEM

Before

Fix or put the Snow Pac to the patient's body according to the position you want to form (e.g., Supine Position) and connect the suction line to the entrance of the Snow Pac.

Depending on the intensity of the Snow Pac you want to make, use a suction line to inhale the air in the Snow Pac properly. (If you inhale for about 10 to 15 seconds, vacuum is created inside the Snow Pac and it becomes hardens)

After

The inside of the Snow Pac is vacuumed and fixed to the desired shape.

When the suction line is disconnected, the Snow-Pac retains its firm, molded shape and holds the patient securely in position.

After surgery, if user open the entrance of the Snow Pac and press it slightly, air re-enters into the Snow Pac and it becomes soft again and re-useable.

EFFECT

Stable

Because Snow-Pacs are molded well, firmly and securely to shape of the patient's body than sandbags, towel rolls and other devices that are merely propped against the patient.

Comfortable

The apparent wrinkles are inverted-drawn inward by suction and will not irritate the skin.

Better Presentation

With Snow-Pacs the patient can be positioned exactly as the surgeon desires for excellent presentation of the operative site. Snow-Pacs conform to any shape, so the patient's position does not have to be compromised.

More Versatile

With Snow Pacs patient can often be placed in positions that could not be easily achieved using other positioning devices.

No Pressure Points (With Gels)

A Snow-Pac supports all parts of the patient's body uniformly when used with gel like a floating mattress.

Saves Time

Patients can be positioned much more quickly and easily using Snow Pacs, and if necessary, be repositioned during a case.

OTHER FEATURES

Any Vacuum Source

Use wall suction, aspirator pump or any other convenient O.R. vacuum source.

Reusable

As the exterior material is soft and sturdy, Snow Pac can be used for many years as long as they are thoroughly controlled for contamination.

Radiolucent

Excellent radio transparency with only minimal and clearly identifiable artifacts.

Clean, Disinfect, Sterilize

Can be cleaned with regular soaps and liquid disinfectants or sterilized by gas.

Saves Money

Snow Pacs save the cost of sandbags, towel rolls and other positioning devices, and they save time in every case.

Repair Service

Factory inspection and repair service is available at nominal cost after warranty period.
Full One Year Warranty.

INDICATION

KIDNEY POSITION, LATERAL POSITION

A type

A-1 type
A-1-1 type

A-1-2 type
A-1-3 type

Easily up in nephrectomy (A type), and also for handicapped person with cerebral palsy.(A-1 type).

A type	73(L) * 100(W)cm
A-1 type	73(L) * 100(W)cm
A-1-1 type	90(L) * 100(W)cm
A-1-2 type	73(L) * 100(W)cm(U)
A-1-3 type	90(L) * 100(W)cm(U)

THYROID POSITION

B type
B-1 type

Provides hyperextension, prevents postoperative discomfort.

B type	72(L) * 88(W)cm
B-1 type	118(L) * 88(W)cm

HEAD STABILIZATION POSITION

C type

Stabilizes head in eye, facial or dental surgery.

C type	30(L) * 40(W)cm
--------	-----------------

SUPINE POSITION

D type

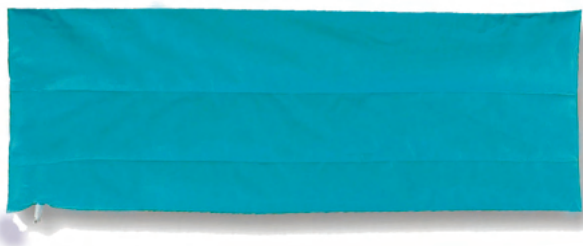

Supports and eliminates back pains during long procedures.

Prevents foot drop splint in Emergency.

D type	30(L) * 55(W)cm
--------	-----------------

VARIOUS FULL BODY POSITION

E type

E type	165(L) * 72(W)cm

Autoclave Instrument Cases

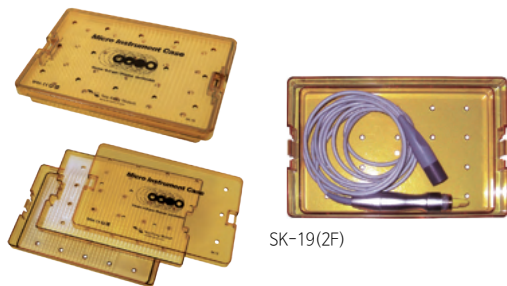

Instrument Sterilization Cases are designed to protect fine surgical instruments and various scopes during sterilization and storage. Our cases are made of elastic special materials for flexible handling and it is transparent so that the inside can be seen during autoclaving. There are fine circular holes in the upper(Lid) and lower(Base) of the case to help circulate steam during sterilization.

Silicon Embo Mat or Bar is placed on the bottom and prevents instruments from moving freely.

- This sterilizing instrument tray is designed to withstand repeated exposure to 134 degrees (Steam / EO / Plasma sterilizable).
- There are a variety of designs and sizes suitable for device applications such as micro instrument, Laparoscope, Telescope, and Endoscope.
- For a detailed description of each model, please click on the model name or the More Product button at the bottom of the page.

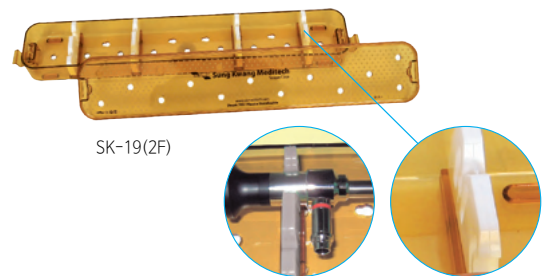

Micro Instrument Case(26(L) x 17(W))

SK-19(2F)	26(L) x 17(W) x 4(H) cm
SK-19-a(1F)	26(L) x 17(W) x 2.5(H) cm

Scope Case(Telescope, Laparoscope)

SK-20-1 (Laparoscope Case)	48(L) x 9(W) x 5(H) cm
SK-20-2 (Telescope Case)	28(L) x 7(W) x 5(H) cm

Micro Instrument Case(1F)

SK-19-S	16(L) x 6(W) x 3(H) cm
SK-19-1	25(L) x 5(W) x 2.5(H) cm
SK-19-3	30(L) x 10(W) x 2.5(H) cm

Micro Instrument Case(1F, 2F)

SK-19-5(2F)	39(L) x 27(W) x 4(H) cm
SK-19-5-a(1F)	38(L) x 26(W) x 2.5(H) cm
SK-19-5-b(1F)	39(L) x 27(W) x 12(H) cm

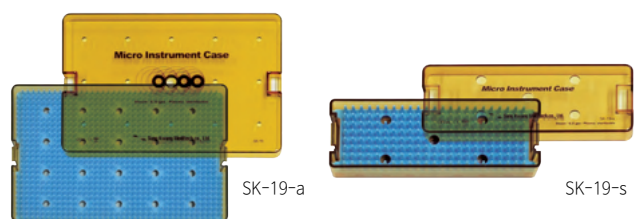

Scope Case(Long, Big size)

SK-20-3(Endoscope)	37(L) x 15(W) x 7(H) cm
SK-20-4(Laparoscopic)	60(L) x 20(W) x 6(H) cm
SK-20-5(Long scope)	72(L) x 15(W) x 10(H) cm
SK-21-1 (Laparoscopic)	64(L) x 25(W) x 15.5(H) cm

Ophthalmic Instrument Case(Silicon color inside: blue)

SK-19-a(1F)	26(L) x 17(W) x 2.5(H) cm
SK-19-S	16(L) x 6(W) x 3(H) cm
SK-19-5-a(1F)	38(L) x 26(W) x 2.5(H) cm

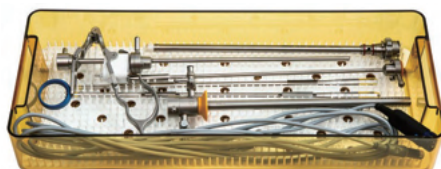

CASES

INSTRUMENT STERILIZATION TRAYS USE CASES

The instrument sterilization case photos below are examples of the use of cases that were actually applied in storage or sterilization processes by various departments such as surgery and internal medicine.

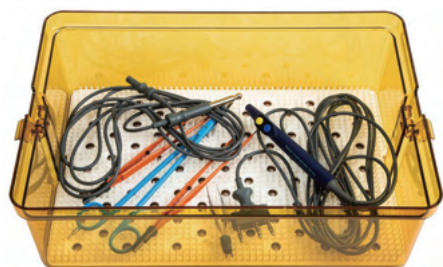

SK-19(2F)
26(L) x 17(W) x 4(H) cm

SK-20-3
37(L) x 15(W) x 7(H) cm

SK-19-a(1F)
26(L) x 17(W) x 2.5(H) cm

SK-19-5-b(1F)
39(L) x 27(W) x 12(H) cm

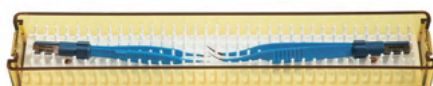

SK-21-1
64(L) x 25(W) x 15.5(H) cm

SK-19-3
30(L) x 10(W) x 2.5(H) cm

SK-20-3
37(L) x 15(W) x 7(H) cm

SK-19-1
25(L) x 5(W) x 2.5(H) cm

SK-20-2
28(L) x 27(W) x 5(H) cm

SK-19-5-a(1F)
38(L) x 26(W) x 2.5(H) cm

Strengths of Sungkwang Meditech trays:

- Cases are transparent. (Users can see instruments during autoclaving)
- Cases are light but strong. (We do not use stainless, steel materials. But, use special strong materials)
- There are fine circular holes in the upper(Lid) and lower(Base).
(It helps circulate steam during sterilization)
- Silicon Embo Mat or Bar is available (It is placed on the bottom and prevents instruments from moving freely).
- It is possible to assemble freely based on the shape of the instrument.

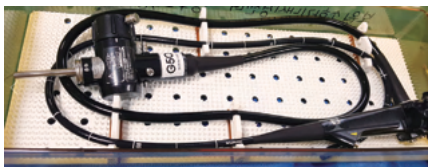

SK-21-1
64(L) x 25(W) x 15.5(H) cm

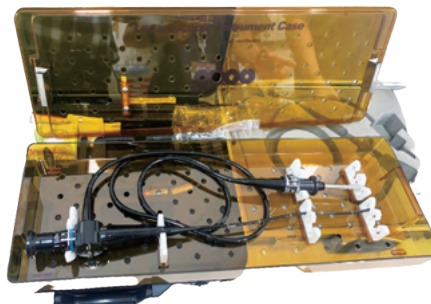

SK-20-3

GEL PRODUCTS

Capillary closure is at the root of ulcer formation.

The blockage or damage of capillaries prevents the natural maintenance of healthy skin.

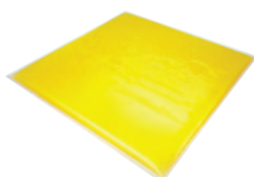

In operation, the use of proper positioning devices prevent excessive pressure build-up and capillary closure.

Evenly distribute weight and provide constant support beneath patients.

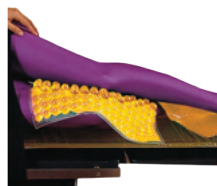

Gel products are cost effective, latex free, fast & easy cleaning, radiolucent tissue equivalent.

DOUGHNUT GEL HEAD PAD

Doughnut gel head pad provides excellent protection when the patient is positioned for surgery by supine position.

SK-22(Adult)	20(D) * 4.5(H)cm
SK-22-3(Child)	15(D) * 3.5(H)cm
SK-22-4(Baby)	9.2(D) * 2.4(H)cm

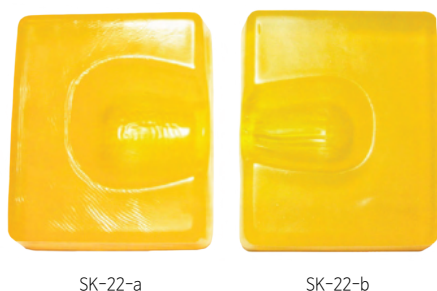

C-DOUGHNUT GEL HEAD PAD

C-doughnut gel head pad provides clear air passage way when the patient is positioned for surgery by lateral or prone position.

SK-22-1 (Adult)	21 (D) * 4.5(H)cm
SK-22-1-1 (Child)	15(D) * 3.5(H)cm
SK-22-1-2 (Baby)	9.2(D) * 2.4(H)cm

GEL OPHTHALMIC HEADREST

It was designed for stable head placement for all ophthalmic and oral or facial procedures.

Also provides patient with comfort while under local anesthesia, minimizing patient movement.

It was also designed for surgeon's functional arm support.

SK-22-a(Adult)	31 (L) * 27(W) * 10(H)cm
SK-22-b(Child)	31 (L) * 25(W) * 7.3(H)cm

GEL OPHTHALMIC CRADLE HEADREST

It was designed for ENT, plastic surgery, all ophthalmic cases.

It helps prevent risk of alopecia especially during long surgery.

Cradling of patient's head provides stability.

SK-22-c(Adult)	23(L) * 23(W) * 5.7(H)cm
SK-22-d(Child)	19(L) * 21.6(W) * 3.8(H)cm

GEL HEAD PAD

It provides optimum stability of patient's head while in the supine position.

Can also be used for position and protect the knee or calf.

SK-22-e(Adult)	18(L) * 18(W) * 8(H)cm
SK-22-5(Baby)	16(L) * 12(W) * 1(H)cm

PRONE GEL HEAD PAD

It provides clear air passage way when the patient is positioned for surgery by prone position.

SK-22-2	27(L) * 24(W) * 15/12(H)cm
SK-22-2-1	27(L) * 21(W) * 8(H)cm

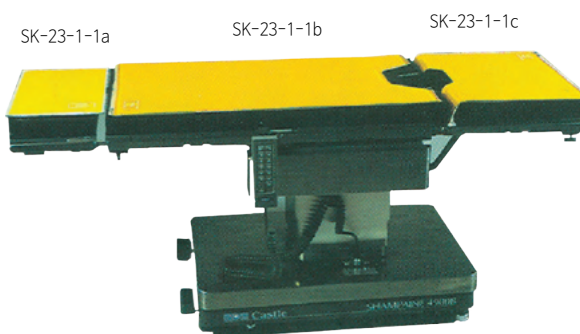

GEL BODY PAD

Gel body pad provides complete pressure reduction and shares across entire table surface

SK-23-2	84(L) * 50(W) * 1.3(H)cm
SK-23	160(L) * 50(W) * 1.3(H)cm
SK-23-1	183(L) * 50(W) * 1.3(H)cm

GEL BODY PAD 3-PIECE SET

This set includes head, torso and foot section pads for use with segment tables.

SK-23-1-1 Gel body pad 3-piece set(a+b+c)	
SK-23-1-1a(Head)	50(L) * 23(W) * 1.3(H)cm
SK-23-1-1b(torso)	100(L) * 50(W) * 1.3(H)cm
SK-23-1-1c(foot)	50(L) * 50(W) * 1.3(H)cm

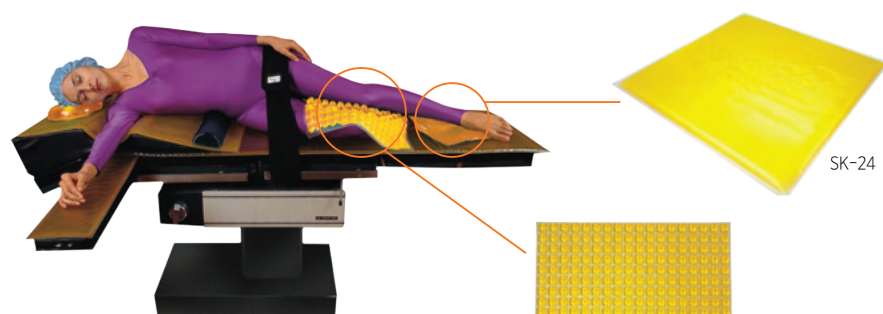

GEL INCUBATOR PAD

It provides gentle pressure for neo-natal patients in the NIC units. It is designed for the isolette beds.

SK-23-5	60(L) * 33(W) * 1.3(H)cm
SK-23-5-1	60(L) * 40(W) * 1.3(H)cm

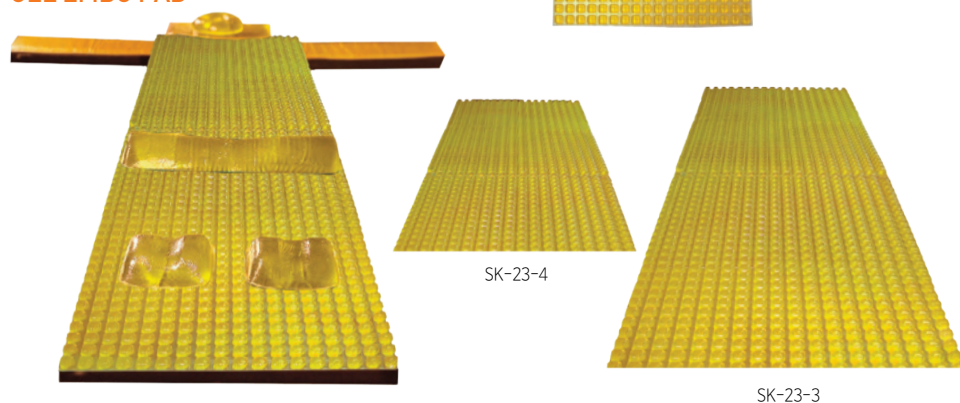

GEL CHAIR PAD

Gel chair pad is used underneath prominence area in a variety of applications.

SK-24	42(L) * 42(W) * 1.3(H)cm
SK-24-2	38(L) * 38(W) * 1.3(H)cm
SK-24-2-1	40(L) * 40(W) * 1(H)cm
SK-24-2-2	40(L) * 45(W) * 1(H)cm
SK-24-3	32(L) * 32(W) * 1.3(H)cm

GEL EMBO PAD

Gel embo chair pad is used for iliac crest, under heels and elbows. Is used as kidney rest, axillary roll while patient in lateral position.

Gel embo body pad provides complete pressure reduction and shears cross entiret ablesur face.

Gel embo chair pad	
SK-24-1	40(L) * 45(W) * 1.6(H)cm
Gel embo body pad	
SK-23-3	160(L) * 45(W) * 1.6(H)cm
Gel embo half body pad	
SK-23-4	80(L) * 45(W) * 1.6(H)cm

Operating Room

GEL KNEE PAD

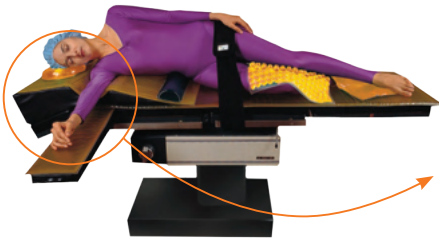

SK-25 (S)
SK-25-1 (L)

Gel knee pad is used for OBGY surgery in lithotomy position. It provides against nerve injury.

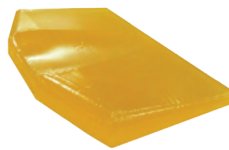

SK-25	40 (L) * 24 (W) * 1 (H) cm
SK-25-1	50 (L) * 52 (W) * 1 (H) cm

GEL LATERAL PAD GEL

SK-26

GEL THYROID PAD

SK-26-2

Gel lateral pad is designed to accommodate both the shoulder and provides exceptional pressure relief and nerve protection.

Gel thyroid pad is designed for thyroidectomy. It provides patient with gentle pressure while long surgery with hyperextension position. The tissue friendly feels make it very comfortable.

SK-26	70 (L) * 50 (W) * 12 (H) / 0.8 cm
SK-26-2	45 (L) * 30 (W) * 7 (H) cm

GEL PATIENT POSITIONER

SK-27-a

SK-27-b

SK-27-c

It is good for any procedure. versatile positioner.

SK-27-a (Small)	25 (L) * 13 (W) * 3 (H) cm
SK-27-b (Large)	35 (L) * 12 (W) * 3 (H) cm
SK-27-c (Extra long)	46 (L) * 11 (W) * 3 (H) cm

GEL PRONE CHEST PAD

SK-27-d

SK-27-e

They were designed for uniformly conform to a patient's shoulder to chest area, with rounded edges for the axilla.

They provide optimum alleviating pressure on the thorax area.

SK-27-d (Right)	70/58 (L) * 20 (W) * 5 (H) cm
SK-27-e (Left)	70/58 (L) * 20 (W) * 5 (H) cm

GEL SHOULDER PAD (CHEST)

SK-27

SK-27-1 (hard)

SK-27-3

SK-27-2 (hard)

SK-27-4

Semi-circular design provides maximum pressure protection while patient is in supine position.

SK-27, 27-4 can be used under the knee, the foot against the board.

While patient is in lateral position, SK-27 can be used for the shoulder protection.

In thyroidectomy, SK-27-4 is used for neck hyperextension.

while patient is in prone position SK-27-1, SK-27-2 can be used under the chest.

SK-27	47 (L) * 10 (W) * 5 (H) cm
SK-27-1	47 (L) * 15 (W) * 8 (H) cm
SK-27-2	47 (L) * 15 (W) * 12 (H) cm
SK-27-3	25 (L) * 15 (W) * 8 (H) cm
SK-27-4	52 (L) * 10 (W) * 8 (H) cm

GEL HEEL & WRIST PAD

SK-28

Gel heel & wrist pad provides safety and protects heel & wrist area body prominence.

SK-28	20(L) * 11(W) * 7(H)cm
-------	------------------------

GEL HEEL SUPPORTER

SK-28-1

GEL HEEL CUP

SK-28-2

It protects heel area without hook and loop attachment.

It protects the patient's Achilles tendon area.

It supports heels. Appropriate for recovery.

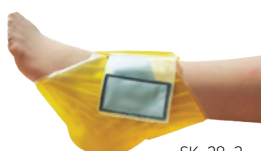

SK-28-1	16(L) * 8.5(W) * 5(H)cm
---------	-------------------------

SK-28-2	17(L) * 18(W) * 1.3(H)cm
---------	--------------------------

GEL HEEL PROTECTOR

(cover)

SK-28-3

It supports heels appropriately for recovery.

SK-28-3	17(L) * 23(W) * 1.3(H)cm
---------	--------------------------

GEL ARMBOARD PAD

SK-29

It is applied for supine position for protection of bony prominence area.

SK-29	55(L) * 15(W) * 1.3(H)cm
-------	--------------------------

GEL LATERAL ARMBOARD PAD

SK-29-1

SK-29-1a

It is applied for lateral position. Designed to provide arm support and stability.

GEL WHEELCHAIR CUSHION PAD WITH COVER

It was made with a high-quality polyurethan gel and PU foam.

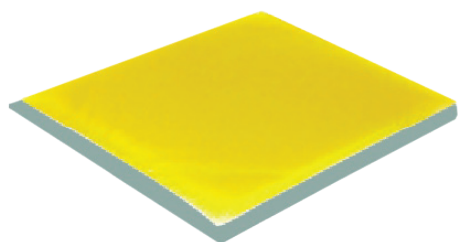

The inner gel material is highly resistant to bacteria and bodily fluids, and can be easily cleaned with warm soapy water or a disinfectant. Also, it helps dissipate heat buildup.

Gel Wheelchair cushion pad offers excellent pressure reduction & distribution, great comfort, and positioning stability.

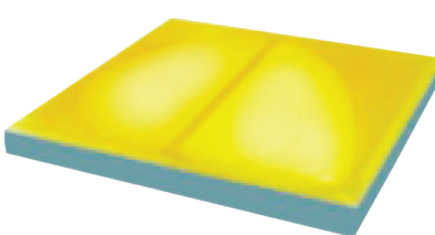

It can be applied for individuals with a history of skin breakdown or those who suffer from pressure sores.

Feel free to enjoy our products below.

Since **human's eyes are more sensitive** to radiation than other parts of human body, **using eyewears or masks is strongly recommended** for users related to the following vocations:
Fluoroscopic Procedures, Cardiac Cath, EP Labs, Urology, Interventional Radiology, Orthopedic Surgery.

- Lead Masks for Full Faces: 0.1 mm Pb
- Lead Eyewears (With Glasses / Without Glasses): 0.75 mm Pb

Lead Masks

SK-400PSM (PANORAMIC FACE SHIELD)

SK-400PSM

The 400PSM Panorama Shield consists of a Face Formed Radiation Protective Lead Impregnated Acrylic Shield that is suspended from a dual adjustable headpiece.

The acrylic shield can be positioned at any angle to the face so as to minimize scatter radiation from passing under the shield by side adjustable dials. The headgear is adjustable in two positions.

An adjustable headband that saddles the crown of the head while connecting at a 90 angle to an adjustable headband that surrounds the head circumference from brow to back. The circumference portion of the headband has an adjustable dial in the rear to increase or decrease the hat size for a comfortable, snug fit.

Wipe clean with a soft cloth. Abrasive materials may scratch front lens.

Cannot be sterilized with high temperatures or high pressure.

- ◆ Weight : 350 grams
- ◆ Protection : .10mm Lead Acrylic
- ◆ Material : Acrylic/Nylon

SK-450FPM (FULL FACE SHIELD)

SK-450FPM

The 450FPM Panorama Mask consists of a Face Formed Radiation Protective Lead Impregnated Acrylic Shield that is suspended from an adjustable headpiece.

The stationary acrylic shield extends from a headpiece brow connector for a length of 8 inches from top to bottom in front of the entire face. A support strap saddles the crown of the head while connecting at a 90 angle to an adjustable headband that surrounds the head circumference from brow to back.

The circumference portion of the headband has an adjustable strap in the rear to increase or decrease the hat size for a comfortable, snug fit. Wipe clean with a soft cloth.

Abrasive materials may scratch front lens. Cannot be sterilized with high temperatures or high pressure.

- ◆ Weight: 450 grams
- ◆ Protection: .10mm Lead Acrylic
- ◆ Material: Acrylic/Nylon

Lead Eyewear (With Glasses)

SK-RE-FUARD (Beta/Alpha)

Cocoon's Flexfit fitover is a versatile, high quality nylon frame. Featuring Flexfit technology, the fitover's temples can be benched (adjusted) easily for a secure, comfortable fit.

The large sized model is ideal for fitting over standard sized prescription eyewear with square or rounded lenses.

Blacked out side shields provide a streamlined look as well as 0.50mm lead equivalent protection.

- ◆ Weight: 108g(B) / 91g(A)
- ◆ Front Lens: 0.75mm Pb Glass
- ◆ Side Shields: 0.50mm Pb Strips
- ◆ Frame Material: Nylon
- ◆ Frame Size: 64-18-150(B) / 69-17-145(A)
- ◆ Color: Black
- ◆ CE: Yes

SK-90 (90 FITOVER)

Designed to fit over prescription eyewear, model 90 fitovers are an excellent choice for those requiring protection against x-ray and liquid splashes.

The large, clear side shields protect the user from lateral exposure while eliminating the "tunnel" effects of look-alikes.

- ◆ Weight: 112g
- ◆ Front Lens: 0.75mmPb Glass
- ◆ Side Shields: 0.5mmPb Standard
- ◆ Frame Material: Durable Nylon
- ◆ Frame Size: 66-14-120
- ◆ Color: Matte Black
- ◆ CE: Yes

SK-70S (70S ASTRO FLEX) (Without Glasses)

A panoramic goggle constructed of impact resistant propionate.

The frame front has molded side shielding and is fitted to the brow for increased splash protection.

The temple length and frame angle are adjustable for a uniform custom fit.

Model 70S comes with Lead side shields for necessary protection from oblique angle exposure.

- ◆ Weight: 88g
- ◆ Front Lens: 0.75mm Pb Glass
- ◆ Side Shields: 0.50mm Pb Strips
- ◆ Frame Material: Propionate
- ◆ Frame Size: 54-19-Adj
- ◆ Color: Clear/Blue
- ◆ CE: Yes

SK-RE-9941A (9941 ULTRALITE)

The 9941 Ultralites come standard with a rubberized nose bridge.

They are designed to offer comfort and provide protection for the entire eye area without the need of additional lead side shields.

The 9941 is a popular frame and ideal for those who have a high power prescription.

Available in 2 sizes and optional adjustable nose bridge for regular sized frame.

- ◆ Weight: 64g
- ◆ Front Lens: 0.75mm Pb Glass
- ◆ Side Shields: 0.50mm Pb Strips
- ◆ Frame Material: Durable Nylon
- ◆ Frame Size: 55-22-130
- ◆ Color: Silver
- ◆ CE: Yes

SK-N-BR (NIKE BRAZEN)

The Nike Brazen features an advanced ventilated nose bridge for grip, comfort, and reduced fogging.

Its lightweight nylon design combine streamlined style and enhanced comfort.

The premium Nike Brazen frame offers versatility with its superior coverage and protection.

- ◆ Weight: 75g
- ◆ Front Lens: 0.75mmPb Glass
- ◆ Side Shields: 0.5mmPb Optional
- ◆ Frame Material: Durable Nylon
- ◆ Frame Size: 60-16-140
- ◆ Color: Matte Black
- ◆ CE: Yes

SK-RE-RAZER (RAZER)

The Razer's blends a sleek design into a lightweight and durable frame. Its premium features such as a ventilated nose bridge, rubberized temples, and wide-angle lenses maximize comfort and protection from x-ray.

The modern style and use of light-weight materials make the Razer an excellent choice for longprocedures.

Features: Ventilated Nose Bridge, Rubberized Temples for Grip and Comfort, Modern Matte Color Finishes, High Rx Options

- ◆ Weight: 62.5g
- ◆ Front Lens: 0.75mmPb Glass
- ◆ Side Shields: 0.5mmPb attached
- ◆ Frame Material: Polycarbonate
- ◆ Frame Size: 58-17-135
- ◆ Color: Matte Green, Matte Gray
- ◆ CE: Yes
